Overview of NIST’s
Small Business Cybersecurity Corner
Join the Small Business Community of Interest (COI)

Convening companies, trade associations, and others who can share business insights, expertise, challenges, and perspectives to guide our work and assist NIST to better meet the cybersecurity needs of small businesses.

NIST Small Business Cybersecurity Corner

www.nist.gov/itl/smallbusinesscyber

Your resource for keeping your small business secure.
Guidance by Topic

The Guidance by Topic section includes topic-specific guidance on actions to take to address cybersecurity risks and secure your business. Visit the All-Purpose Guides section for guidance that covers multiple cybersecurity topics such as good security habits, small business cybersecurity quick wins, or a cybersecurity toolkit for small business.

The Choosing a Vendor/Service Provider section includes information on vendor security and hiring a webhost. The Government Contractor Requirement section provides guidance to help your business comply with Federal government security requirements such as DFARS Cybersecurity Requirements or to see a webinar on the 800-171 Handbook. Visit the Developing Secure Products section to find tips to help you develop secure software and hardware products. To access information to raise your employee’s awareness about the importance of security, visit the Employee Awareness section. You will find a cybersecurity awareness toolkit and common cybersecurity misconceptions.
